

SEARCH BAR

Our search bar allows you to search for properties by looking up countries, regions, towns, cities, company, landmark or attraction and **House Ref. #** -

Start your search

Check in/check out dates

Number of guests

The search bar interface is titled 'Search for Properties & Let the Professionals Take Care of You'. It includes a text input field for 'Country, Region, Town, Company, Landmark, Ref.' with a globe icon, a calendar icon for 'Check In → Check Out', a 'Flexible by' dropdown menu, a 'Guests Any' dropdown menu, and a green 'SEARCH' button with a magnifying glass icon.

Searching by attraction is useful when looking for a property with specific requirements.

For example, looking up the Eiffel Tower or if a client wants to be on a beach in Florida. You could Google Top 10 beaches in Florida and then look up the beaches on RentalsCombined.net. The **distance between the house and the attraction** is displayed under the area title.

The 'Flexible by' allows you to add a buffer of days to the trip if your client has a flexible schedule. In return, this will draw more property options into your search.

SEARCH RESULTS PAGE

The search results page contains all the properties' information without the user having to open up more web tabs. Everything from details on the property's amenities to large photos of the unit can be accessed on this page.

The page populates as the user scrolls down it and unavailable properties will turn black and white and disappear from the page.

Clear and update filter buttons.

PROPERTY CARD

The property cards on the 'Search Results Page' are a quick and easy reference to click through.

SHARE

The 'Heart' and 'Share' button are tools to share properties with clients.

The top left hand corner of the card provides the location name and, below, the distance from searched location. The property's reference number (which you can use to look up a specific property by placing it in the search bar) follows, along with basic information - number of people allowed to stay at the property, bedrooms, bathrooms and WiFi.

This area includes a star rating, range in price per night and price per week. Underneath is the logo of the property's management company.

PROPERTY DETAILS PAGE

The 'Property Details Page' gives a detailed overview of the property and is where one books a property.

With the acceptance of the 'Reviews' tab, these tabs provide the same information as seen on the 'Search Results Page.'

The 'Total Price' may display two currencies - one price in the currency the agent is using and the other that of the property management company.

The screenshot shows a property details page for an apartment in Paris. The page is divided into several sections:

- Navigation Tabs:** PHOTOS, OVERVIEW, AVAILABILITY & PRICES, LOCATION, REVIEWS.
- Main Image:** A large photograph of a bright, modern apartment interior with a white table and red chairs, overlooking a balcony with a view of Parisian architecture.
- Property Information:** Apartment Ref: 317319, Paris, PRICE/WEEK \$1,367 to \$2,428.
- Availability & Price:** AVAILABILITY & PRICE, 25-Aug-2017 to 31-Aug-2017, TOTAL PRICE: €1,483 (EST. \$1,667).
- Actions:** BOOK NOW, ASK A QUESTION.
- Support:** HELP LINE 24/7 (US) +1 (310) 299-2080, ALL BOOKINGS INSURED, Immediate Bookings, Immediate Confirmations, Professionally Managed, Quality Controlled.
- Additional Photos:** A grid of smaller images showing different views of the property.
- Bottom Action:** START SHOW ME.

You can change the currency you are working in on the website, either at the top of the website or once you are making a booking.
